

ACCEPTED ELECTRONIC WASTE

E-Waste (electronic waste) refers to unwanted electronic products, including computers, TVs, VCRs, stereos, copiers and telephones. Some of these unwanted electronics can be reused or refurbished. Non-profit, charitable organizations may accept electronics that are in good working condition or that need minor repairs in order to be reused.

Do not throw unwanted e-waste in the trash! **LASAN S.A.F.E. Centers** are open every weekend and provide an easy way to dispose of your household electronics.
