

HYPERION CITIZENS FORUM

HYPERION WATER RECALAMTION PLANT

MAINTENANCE REPORT

January 19, 2023

Report for October – December 2022

Green Belt

- Performed the Bi-weekly trash removal.
- Inspected the irrigation system and adjusted watering schedules.

Maintenance Activities

- The Primary Battery tank covers
 - Maintenance staff installed new tank covers on all four tanks at Primary Battery A (12 bays in total).
 - Since Primary Battery A is online, the Hyperion Water Reclamation Plant (HWRP) has moved to Primary Battery C to address repairs. Due to the condensed schedule, this work will be performed by a contractor. Other batteries, B and D, will be addressed thereafter.
- Fenceline Monitoring Stations
 - The Equipment shop dug and backfilled the trench for electrical work.
 - The Electrical Shop installed the conduit and wiring to the third Montrose H2S monitor.
- Supported the odor control tower carbon replacement
